 Re: Claim No. [REDACTED]

Date	Event/ Care Provider	Source	Pg	Event Description	Research/Related to Accident
5/3/13	Accident A	State of [REDACTED] Accident Report Accident # [REDACTED]		S.F. was the front seat passenger of a vehicle (V2) parked in front of a distressed driver's vehicle (V1) on IR 15. The driver of V2 left her vehicle to do a welfare check on the driver of V1. The driver of V1 lost consciousness and pressed the accelerator. V1 pushed the driverless V2 approximately 4900 feet while SF climbed into the driver seat and pressed the brakes, steering V2. Four days after this accident S.F. presented to Meadows Chiropractic for evaluation.
